

Job Title: Full Stack Web Developer  
Location: [Remote / On-site – City, Country]  
Job Type: [Full-time / Part-time / Contract]  
Experience Level: [Junior / Mid-level / Senior]

#### About the Role:

We are looking for a highly skilled and versatile Full Stack Web Developer to join our development team. You will be responsible for building and maintaining scalable, high-performance web applications from front-end to back-end. You should have a passion for problem-solving, writing clean and efficient code, and creating user-friendly experiences.

#### Key Responsibilities:

Design, develop, and maintain web applications using modern frameworks and technologies.

Work on both client-side and server-side components of the application.

Collaborate with UI/UX designers, product managers, and other developers to deliver high-quality solutions.

Build and maintain APIs and ensure seamless integration between front-end and back-end systems.

Write clean, maintainable, and scalable code following best practices.

Debug and resolve technical issues, optimize performance, and ensure security of applications.

Participate in code reviews and contribute to a culture of continuous improvement.

#### Required Skills & Qualifications:

Proficiency in front-end technologies: HTML5, CSS3, JavaScript, and frameworks like React.js, Angular, or Vue.js.

Experience with back-end development using languages such as Node.js, Python, Ruby, PHP, or Java.

Familiarity with databases: MySQL, PostgreSQL, MongoDB, or similar.

Experience with RESTful APIs and microservices architecture.

Familiarity with version control systems like Git.

Understanding of cloud services (e.g., AWS, Azure, or Google Cloud) is a plus.

Knowledge of CI/CD pipelines and DevOps practices is an advantage.

Strong problem-solving skills and attention to detail.

Good communication and collaboration abilities.

#### Preferred Qualifications:

Bachelor's degree in Computer Science, Engineering, or a related field.

Experience with Docker, Kubernetes, or containerization.

Exposure to Agile/Scrum development methodologies.

Experience with testing frameworks (e.g., Jest, Mocha, Selenium).

What We Offer:

Competitive salary and performance-based bonuses.

Flexible working hours and remote work options.

Professional growth and learning opportunities.

A collaborative, inclusive, and innovative work environment.
